SIGNATURE JOURNEY

SOUTH AFRICA: WILDLIFE CONSERVATION EXPERIENCE

OUR PURPOSE

Live in harmony with nature on an exclusive reserve and become part of the efforts to protect the animals of the Greater Kruger National Park region. Meet conservationists working to protect endangered species and get up close and personal with a variety of wildlife in a way that most travelers never experience. Go beyond the normal safari experience and become part of the wildlife conservation movement.

Kruger National Park is the largest animal reserve in the country, but its inhabitants are facing many different threats. Rhinos are being poached for their horns, lions are suffering from Feline Immunodeficiency Virus (FIV), and leopards are being shot by farmers. However, some of the most innovative conservation efforts in the world are taking place in this same area. You'll have the chance to meet inspiring conservationists and help to protect magnificent animals such as lions, rhinos, hippos, and more.

When you're not out viewing animals, enjoy relaxing at our camp located on the banks of the Blyde River, inside a private conservancy. Enjoy leisurely nature walks, relax at your lodge in the heart of the bush, or gaze at the river and enjoy up some of the finest birdwatching in South Africa.

HIGHLIGHTS

GREATER KRUGER NATIONAL PARK

Greater Kruger National Park and the adjacent private nature reserves comprise the Greater Kruger region, covering more than 7,500 square miles of protected wilderness. This spectacular region has been designated as a Biosphere Reserve by UNESCO, and is home to over 500 species of birds. It also contains more species of large mammal than any other African reserve, including the Big Five. Nearby lies the Blyde River Canyon, the third largest canyon in the world.

SPOT THE BIG FIVE

As much as anything else, the thing that continues to draw travelers to African safaris is the opportunity to spot the so-called Big Five of lion, elephant, Cape buffalo, leopard and rhinoceros. All these magnificent beasts live in the Greater Kruger National Park, and we'll have ample opportunity to get a good look at all of them over the course of our stay - from a safe distance, of course. You'll also assist conservationists with tracking and monitoring.

ZINGELA ULWAZI PROJECT

While wildlife-spotting is sure to be a highlight of your time in the Greater Kruger area, you'll also have the chance to interact with local community projects during your stay. The Zingela Ulwelzi Project is dedicated to helping vulnerable women and children from nearby townships to gain independence through self-defense workshops, micro-enterprise programs & food security initiatives. You'll meet with their staff and experience these initiatives firsthand.

ROBBEN ISLAND PRISON (EXTENSION ONLY)

If you choose the optional Cape Town Extension to this trip, you'll have the privilege of visiting the notorious prison on Robben Island. Most famous as the place where Nelson Mandela was confined for 18 years, several South African presidents had previously served as inmates here. The island was initially used as a prison by Dutch settlers in the 17th Century, and became notorious in the 20th Century for the hard labor and extreme conditions which its inmates were subjected to.
